<ul style="list-style-type: none"><li>Collaborated in Agile environment, using sprint methodology.</li><li>Developed full-stack website using Python, Flask, HTML, CSS, and JavaScript.</li><li>Managed SQLite databases for efficient data storage.</li><li>Worked cross-functionally to deliver project objectives.</li></ul>	

## Project

### Zoom Any Picture Using Hand Gesture | [Link](#)

- Developed real-time computer vision system for hand gesture recognition.
- Implemented intuitive image zooming using OpenCV algorithms.
- Created user-friendly interface for image magnification.

### Flavorscape – Food Delivery Web App | [Link](#)

- Developed a multi-role food delivery app supporting user registration, admin panel, and delivery-agent access.
- Implemented food search, order placement, and tracking using Flask + SQLite.
- Designed a responsive UI supporting users, admins, and delivery agents with smooth ordering and delivery workflows.

### Creditium – FullStack Loan App | [Link](#)

- Built a full-stack loan platform where users can register, log in, search loan offers, apply for loans, complete KYC, add wallet money, and view EMI schedules.
- Developed a Flask + SQLite backend supporting loan applications, KYC flow, wallet operations, and EMI calculations.
- Created an admin dashboard to track all loan applications, monitor users, verify KYC, and review EMI updates.
